LIQUIDROM

IT IS ALWAYS A GOOD TIME FOR SPA

Every day is SPA day. In our urban, versatile and tolerant SPA oasis, every guest enjoys a wonderful time.

Driven by the magic of water and a unique minimalist architecture, our SPA lounge in the middle of the city leaves you with a feeling of contentment, light-heartedness and joy.

This extraordinary SPA is waiting to be discovered. The LIQUIDROM is a place to relax, recharge your batteries, change your perspective and spread happiness - a hidden palace without any electronic devices with a camera function, such as cell phones, Ipads and the like.

ARCHITECTURAL MASTERPIECE

Meinhard von Gerkan has created an architectural masterpiece that has attracted worldwide attention.

The 36 °C water pools and the interplay of light and sound as well as the various saunas make a visit an ode to the capital. Especially when guests also experience a revitalizing massage treatment.

Natural materials dominate the design in the LIQUIDROM. The floors and walls in the wet and bathing areas are clad in a greenish-grey natural stone, while the walls in the other rooms are made of refined exposed concrete.

The ceilings are suspended and have a dark coating. A special oasis of well-being that caresses the senses and relieves the stress of everyday life.

OCEANIC MUSIC EXPERIENCE

The centerpiece of LIQUIDROM is the water basin with a diameter of 13 m, which is covered by a dome-shaped concrete shell with a skylight at the zenith. The water with its 4% brine content measures 36° Celsius.

Light and sound determine the atmosphere

and guests lying in the body-warm brine water can enjoy an impressive musical experience via light installations, underwater loudspeakers and four sound columns.
